Overview A3

The Caccialanza & C. <u>A3 type monitors</u> are light and compact units for high performances, designed to operate in extremely hard conditions and in aggressive environments (refineries, chemical industries, offshore, etc.).

The A3 type monitors are available in following executions:

- manually handlever operated (A3)
- manually handwheels operated (AS3)
- automatic oscillating (water pressure operated) (AU3)
- electric remote controlled (A3-El)
- hydraulic remote controlled (A3-Hy)

The A3 type monitors can be equipped with following water- and foam pipes and nozzles:

- water pipe and full jet nozzle
- water pipe and adjustable water nozzle for full jet / spray jet
- adjustable foam/water nozzle for full jet / wide fog jet
- combined foam/water pipe
- self priming combined foam/water pipe
- selector valve for foam/water operation with double pipe
